### **Full Year 2024 Outlook**

- Exploration of the expanded property package along the Otu fault to continue to build total resources and identify the next mine on the Company's Antioquia properties.
- Continue to formalize the operations of small miners working on the Company's concessions, aiming for 10% of its production to come from these formalized small miners.
- Finalize plans to restart the el Limon Mill to process both excess ore from Cordero and ore from formalized small miners.
- Review further strategic additions to the Company's concession package, targeting trends identified by its exploration program.
- Drill the Cordero deposit at depth with the new underground drill purchased by the Company to confirm resource continuity and increase resource estimates.

Geoff Hampson, Soma's President and CEO, states, "2023 was an exceptional year as we achieved significant increases in our gold production and EBITDA. Despite a challenging inflationary environment in Colombia and changes in mining methods, we managed to maintain stable cash costs. Going forward, we expect continued growth in the number of produced ounces, with the Machuca Mine set to come online mid-year. This additional feed material justifies the restart of the el Limon Mill, which has been on care and maintenance as production scaled up. We also anticipate lower mining costs due to the transition from mechanized mining to the conventional raise stope method."

The Company also announces that it has accepted Javier Cordova's resignation as CEO, President, and Director of the Board of Soma Gold Corp. and all of its subsidiaries. The Board thanks Javier for his contributions and wishes him the best in his future endeavors.

The Company also announces that it has granted incentive stock options, pursuant to its equity incentive plan, to an employee of the Company to purchase up to 200,000 common shares of the Company. The stock options are exercisable at a price of \$0.56 per share for a period of 5 years from the date of grant. The Company also announces that it has awarded an aggregate of 50,000 Restricted Share Units ("RSUs") under its equity incentive plan to certain non-executive directors of the Company. Each RSU represents a right to receive one common share of the Company following the vesting of such RSUs over a three-year period. The foregoing grants are subject to the approval of the TSX Venture Exchange.
