The accompanying notes are an integral part of these interim condensed consolidated financial statements.

1. Nature of Operations

Soma Gold Corp. ("Soma" or the "Company") was incorporated on April 13, 2010, under the laws of British Columbia, Canada. The Company's registered office is 1200 - 750 West Pender Street, Vancouver, British Columbia, Canada, V6C 2T8, and its head office is located at 1500 - 409 Granville Street, Vancouver, British Columbia, V6C 1T2.

The Company's principal business activities are the acquisition, exploration and development of mineral properties and the operation of the El Bagre Gold Mining Complex through its wholly owned subsidiaries in Colombia. The El Bagre operations consist of a gold processing plant and the Cordero underground gold mine.

The Company is a Canadian public corporation whose common shares are listed on the TSX Venture Exchange in Canada under the symbol "SOMA" and on the OTCQB Venture Market in the United States under the ticker symbol "SMAGF."

2. Basis of Presentation

Basis of preparation

The Company's interim condensed consolidated financial statements (unaudited) (the "consolidated financial statements") have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards"), as applicable to the preparation of interim condensed consolidated financial statements including International Accounting Standards ("IAS") 34. The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2025.

The consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company.

The interim condensed consolidated financial statements were approved for issuance by the Company's Board of Directors on November 25, 2026.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its controlled subsidiaries as of September 30, 2026 and December 31, 2025. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, it has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that one or more of the three elements of control have changed. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary.

The consolidated financial statements include:

Subsidiary's name	Principal place of business	Ownership interest		Principal activities
		2026	2025	
Angra Metals Mineracao Ltda (“**Angra**”)	Brazil	100%	100%	Mineral exploration

3. Accounting Policies and Adoption of New Accounting Standards

Adoption of new standards

Amendments to the Classification and Measurement of Financial Instruments - IFRS 9 - Financial Instruments and IFRS 7 - Financial Instruments: Disclosures

In May 2024, the IASB issued amendments to update classification and measurement requirements in *IFRS 9 Financial Instruments* and *IFRS 7 Financial Instruments: Disclosures*. The IASB clarified the recognition and derecognition date of certain financial assets and liabilities, and amended the requirements related to settling financial liabilities using an electronic payment system. It also clarified the assessment of the cash flow characteristics of financial assets in determining whether they meet the solely payments of principal and interest (“SPPI”) criterion, including financial assets that have environmental, social and corporate governance (“ESG”)-linked features and other similar contingent features. The IASB also added disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs and updated the disclosures for equity instruments designated at fair value through other comprehensive income. The amendments apply retrospectively to reporting periods beginning on or after January 1, 2026. For financial liabilities settled in cash using an electronic payment system, the Company applied the election to deem these financial liabilities to be discharged before the settlement date. The adoption of these amendments did not have a material impact on the Company’s interim condensed consolidated financial statements.

Standard not yet adopted

IFRS 18 – Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued *IFRS 18 Presentation and Disclosure in Financial Statements*, which replaces *IAS 1 Presentation of Financial Statements* and introduces a defined structure for the statement of profit or loss by requiring all income and expenses to be categorized as operating, investing, financing, income taxes and discontinued operations with subtotals. Although IFRS 18 will not impact the recognition and measurement of items in the financial statements, it will impact the presentation and disclosure of certain aspects of the financial statements, including the disclosure of explanations around management-defined performance measures ("MPMs"). IFRS 18 also provides additional guidance on principles of aggregation and disaggregation that apply to the primary financial statements and notes.

IFRS 18 applies retrospectively to reporting periods beginning on or after January 1, 2027, with early application permitted and with a requirement to restate comparative information. The Company is currently assessing the impact of the new standard on its consolidated financial statements presentation and disclosure.

4. Trade and Other Receivables

Nechi Gold Project

The Company owns 100% of the Nechí Gold Project ("Nechi"), which itself is comprised of the El Catorce, Santa Elena, and Santa Maria gold exploration projects located in Antioquia, Colombia. The properties are subject to NSR royalties totaling 2.0%.

Zara Properties

The Company owns 100% of the Zara exploration properties located in Antioquia, Colombia, except for the rights pertaining to non-metallic minerals. The properties are subject to a 2% NSR royalty.

Otu Centro Properties

On May 17, 2023, the Company purchased 100% of the Otu Centro exploration properties located in Antioquia, Colombia. The Otu Centro properties are directly south of and contiguous with the Company's Zara exploration properties.

Principal terms of the agreement include:

(i) An initial cash payment of US$1,000,000 on closing the agreement (completed);
(ii) A second cash payment of US$1,120,000 due on May 12, 2024 (completed).
(iii) The assumption and payment of US$150,000 in liabilities related to the properties (completed).

(iv) The granting of a 2% NSR on metallic minerals. One-half of the NSR (1%) can be repurchased for US$1,000,000 (indexed to US CPI).
(v) Assumption of an existing 5% NSR on the claim covering the historic Aurora mine.

Tucumã Gold Project

Through its subsidiary Angra, the Company owns a 100% interest in the Tucumã copper/gold exploration project, located in the Carajas metallogenic province in the State of Pará, Brazil.

On March 15, 2022, the Company optioned its Tucumã Project in Brazil to Ero Copper Corp. ("Ero"). The agreement was amended on September 11, 2024 and again on July 21, 2025 to extend certain terms of the original agreement to allow Ero additional time to access one of the properties included in the option agreement. Ero can acquire a 100% interest in the project by completing the following:

(i) Cash payments of:
    a. US$250,000 on signing the agreement (completed);
    b. US$100,000 on or before five business days after September 6, 2023 (completed); and
    c. US$100,000 on or before twelve months from the date Ero is able to access the final exploration property (completed).
(ii) Complete exploration expenditures of:
    a. US$1,200,000 on or before September 6, 2023 (completed);
    b. US$250,000 on or before September 6, 2024 (completed); and
    c. US$250,000 on or before March 6, 2026 (completed).
(iii) Make a final option payment of US$3,000,000 in cash or common shares on or before September 5, 2027 (twenty-four months from the date Ero is able to access the final exploration property).

Ero has completed all the cash payments, totaling US$450,000, and incurred exploration expenditures of US$1.9 million on the Tucuma Project.

El Limon Project

The El Limon Project ("El Limon") is located in Antioquia, Colombia and is adjacent to the Company's operating El Bagre Project. El Limon includes a past-producing underground mine and a gold processing plant with a capacity of approximately 225 tonnes per day ("tpd").

Escondida Project

On November 28, 2025, the Company acquired 100% of the rights to the Concession Mining Contract No. KB5-15371 (the "La Escondida Mine") located in Cáceres, Antioquia, Colombia. The acquisition includes all associated mining assets, permits and equipment and it was accounted for as an asset acquisition. The total purchase price for the acquisition was US $3,000,000, structured as follows:

(i) First Installment: US $1,000,000 total, payable in two tranches of US $500,000 on the First Closing Date and Second Closing Date (completed);
(ii) Second Installment: US $500,000 due on the first anniversary of the First Closing Date;
(iii) Third Installment: US $500,000 due on the second anniversary of the First Closing Date; and
(iv) Fourth Installment: US $1,000,000 due on the third anniversary of the First Closing Date.

Outstanding installments for the purchase price are included within acquisition payables on the consolidated statement of financial position.

The Company is obligated to pay 5% per annum simple interest on the Second, Third, and Fourth installments, accruing from the Closing Date until the day prior to each respective payment. Additionally, a 0.5% Net Smelter Royalty (NSR) was granted to the Seller. The Company maintains an exclusive option to purchase this NSR at any time for a cash consideration of US $750,000.

El Bagre

The Company owns 100% of the El Bagre Gold Mining Complex ("El Bagre") in Antioquia, Colombia. El Bagre consists of the Cordero underground gold mine and an on-site gold processing plant. The properties are subject to an NSR royalty of 1%.

El Limon

The Company owns 100% of the El Limon mine (past producing - see Note 7) and Mill in Antioquia, Colombia. The El Limon Mill has been on care and maintenance but is being refurbished to restart operations.

As at December 31, 2025, an indicator of impairment was noted for the El Limon Mill CGU associated with changes in the expected sources and timing of mineral feed to the mill which may result in delays of between 6 to 18 months, to achieve planned utilization levels. As a result of an indicator of impairment being noted, the recoverable amount of the CGU was estimated. The estimated recoverable amount of the CGU exceeded its carrying value of $11.1 million and no impairment charge was recorded in the year ended December 31, 2025. No impairment indicators were noted as of the period ended September 30, 2026.

The project had been subject to a 3% NSR royalty on ore processed at the Limon Mill to a maximum of US$2,000,000. Upon reaching the US$2,000,000 NSR royalty threshold, the NSR royalty would have decreased to 0.5% up to a maximum of US$1,000,000. In September 2025, Soma repurchased the royalty for $1.9 million in cash and the issuance of 200,000 common share purchase warrants exercisable at $2.00 per share for a period of three years (valued at $74,000).

9. Trade Payables and Accrued Liabilities

As at September 30, 2026 and December 31, 2025, the Company's trade payables and accrued liabilities consist of the following:

	2026	2025
Trade accounts payables	23,042,762	13,175,722
Employee benefits liabilities	4,312,241	2,792,818

11. Equipment Financing

As at September 30, 2026 and December 31, 2025, the Company's equipment financing consists of the following:

	2026	2025
Opening balance	**853,838**	**3,187,199**
Increase in equipment financing	927,179	272,124
Interest	102,465	211,114

Less: current portion	(977,232)	(669,150)
Non-current portion	**347,780**	**184,688**

The Company has entered into multiple financing arrangements with Sandvik Financial Services S.A. and Impoxfast S.A.S., respectively, to purchase various pieces of mining equipment. The loans carry interest rates from 9% to 18%, require monthly payments of principal and interest, and are amortized over periods from 12 to 36 months.

The financing is secured by the underlying equipment purchased, which has a net book value of $7,707,223 as of September 30, 2026 (December 31, 2025 - $6,796,535). The financed equipment is included in the equipment & machinery and vehicles categories of mineral properties, plant and equipment (Note 8).

12. Lease Obligations

As at September 30, 2026 and December 31, 2025, the Company's lease obligations consist of the following:

	2026	2025
Opening balance	**1,219,034**	**1,271,866**
Additions	229,460	476,186
Disposals	(26,531)	-

Less: current portion	(346,924)	(467,930)
Non-current portion	**680,238**	**751,104**

The leases relate principally to light vehicles and portable camp and office buildings.

13. Deferred Revenue

As at September 30, 2026 and December 31, 2025, the Company's deferred revenue consists of the following:

	2026	2025
Opening balance	**3,599,879**	**4,177,774**
Interest	531,884	968,102
Gold deliveries	(1,686,723)	(1,846,597)
Revaluation	19,803	(8,931)
Foreign exchange	367,200	309,531
Closing balance	**2,832,043**	**3,599,879**
Less: current portion	(2,157,830)	(2,300,139)
Non-current portion	**674,213**	**1,299,740**

On September 9, 2020, the Company entered into an offtake agreement (the "Offtake Agreement") with Nueva Granada Gold Corp ("NG") and a purchase and refining agreement with MVPR International Incorporated ("MVPR"), a wholly-owned subsidiary of NG, for the mineral production from Operadora's operations. The value of the Offtake Agreement was US$5.0 million.

The Company completed Stages 1 and 2 of the Offtake Agreement in January 2023 requiring a 12% NSR in the first 24,500 gold ounces delivered and a 6% NSR on the next 22,000 gold ounces delivered, respectively. Stage 3 - a 1% NSR until the end of production remains in effect.

In May 2024, the Company amended the Offtake Agreement with Goldlogic Corp. ("Goldlogic" - formerly NG) and MVPR. Pursuant to the revised terms of the Offtake Agreement, the Company has received an advance payment of US$3 million from Goldlogic and is obligated to deliver a monthly payment of 59.9 ounces of gold to Goldlogic for a duration of 36 months, commencing in June 2024 (Stage 4). Subsequent to the period ended September 30, 2026, the Company repaid the remaining obligation in full in advance, eliminating the associated monthly gold delivery commitment of 59.9 ounces.

The Offtake agreement and purchase and refining agreement were determined to be linked and as such, have been assessed together when determining the accounting for the Offtake agreement. The Company settles the respective liability with deliveries of gold from its own production, and therefore, the "own use" exemption has been met. The Company also facilitates payments between parties of the arrangement. The payments are made after the delivery under the contractual provisions has occurred and do not change the substance of the arrangement.

The outstanding deliveries under the original Offtake Agreement as a percentage of the total deliveries expected under the arrangement are subject to estimation uncertainty. Cumulative revenue recognized to date is subject to adjustments that occur when the quantity of ounces to be delivered under the contract changes, the Company's estimates of mineral reserves and resources increase, or the mine plans are amended.

During the three and nine months ended September 30, 2026, the Company delivered 4,116 (2025 - 4,025) and 11,425 (2025 - 14,742) ounces of gold under the Offtake Agreement, respectively. The delivery of gold for the three and nine months ended September 30, 2026 resulted in a decrease in deferred revenue of $406,697 (2025 - $562,841) and $1,686,723 (2025 - $1,773,988), respectively.

The offtake obligation encompasses only gold mined on existing Operadora mining titles and is not applicable to the Company's other properties.

14. Acquisition Payable

As at September 30, 2026 and December 31, 2025, the Company's acquisition payable consists of short-term payable of $705,866 (December 31, 2025 - $684,604) and long-term payable of $2,117,597 (December 31, 2025 - $2,053,812) related to the acquisition of the Escondida Project (Note 7).

15. Related Parties Transactions

During the three and nine months ended September 30, 2026 and 2025, the Company paid or accrued remunerations to its directors and officers as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2026	2025	2026	2025
Staffing and management costs	133,190	189,346	656,723	870,297
Share-based compensation	213,345	5,973	798,217	464,024

All amounts due to related parties are unsecured, non-interest-bearing, and have no specific repayment terms unless otherwise stated.

During the three and nine months ended September 30, 2026 and 2025, the Company paid the following expenditures to a Company controlled by a director:

	Three months ended September 30,		Nine months ended September 30,	
	2026	2025	2026	2025
Office rent	7,046	6,300	19,961	18,900
Consulting fees	59,919	28,303	121,579	94,032

Subordinated Loan

On July 31, 2020, the Company entered into a Subordinated Loan Agreement with Conex Services Inc. ("Conex"), a company owned by a director, for the purposes of consolidating and restructuring the then-existing indebtedness (the "Subordinated Loan"). On September 1, 2024, the Subordinated Loan Agreement was amended to make the entire principal amount of the Subordinated Loan, together with any unpaid interest, repayable only on the maturity date, July 31, 2030.

On June 2, 2026, the Company settled the total outstanding debt of $25,780,086 under the amended subordinated loan agreement, with a carrying book value of $22,843,870, through the issuance of 23,436,442 common shares at a deemed price of $1.10 per common share. The fair value of the common shares on the settlement date was $23,202,078 ($0.99 per common share), resulting in a $358,208 difference between the loan carrying book value and the fair market value of the shares issued, which was recognized directly in contributed surplus. Following the settlement of the Subordinated Loan, the ownership interest of Conex Services Inc. increased to 51.4%, representing a controlling interest in the Company.

During the three and nine months ended September 30, 2026, $Nil (2025 - $33,732) and $120,219 (2025 - $158,538) of accretion and $Nil (2025 - $918,361) and $1,239,270 (2025 - $3,014,389) of interest were expensed as finance costs in the statements of income (loss) and comprehensive income (loss) related to the Subordinated Loan, respectively. The outstanding face value of the Subordinated Loan, including accrued interest, as of September 30, 2026, was $Nil (December 31, 2025 - $24,540,815).

	September 30, 2026	December 31, 2025
Opening balance	**21,484,381**	**30,454,720**
Interest and accretion	1,359,489	3,974,842
Repayment in cash	-	(5,000,000)
Repayment through issuance of common shares	(23,202,078)	(10,000,000)
Loss on debt repayment recorded in contributed surplus	358,208	-
Loss on partial debt extinguishment	-	2,054,819
Closing balance	**-**	**21,484,381**

Included in the Subordinated Loan was a prepayment option that was not clearly or closely related to the host contract and as such, was accounted for as an embedded derivative. Management assesses the fair value of the embedded derivative at each reporting period and determined it to be non-material and as such, it has not been adjusted for.

Other Balances and Transactions

As at September 30, 2026, trade payables and accrued liabilities included $417,909 (December 31, 2025 - $15,374) owing to executives and directors of the Company.

16. Decommissioning and Restoration Provision

As at September 30, 2026 and December 31, 2025, the Company's Decommissioning and Restoration Provision consists of the following:

	2026	2025
Opening balance	**2,236,399**	**1,906,054**
Changes in estimated costs	-	435,707
Changes in economic assumptions	13,123	(508,883)
Accretion on provision	138,309	183,934
Foreign exchange	356,442	219,587
Closing balance	**2,744,273**	**2,236,399**

The Company estimates its decommissioning and restoration provision based on its understanding of the requirements to reclaim and remediate its El Bagre property based on its activities to date. The Company's provision is based on the current best estimate of mine closure and reclamation activities considering the level of known disturbance at the reporting date, known legal requirements and internal cost estimates.

The Company valued the provision using the present value of the expected reclamation cash flows based on an appropriate discount rate to reflect the time value and risk of the cash flows. The Company used inflation rates of 3.0% to 6.8% (December 31, 2025 - 3.3% to 6.3%) and a discount rate of 12.94% (December 31, 2025 - 13.00% to 13.10%) in calculating the provision. As of September 30, 2026, the liability for retirement and remediation on an undiscounted basis is $3,793,994 (December 31, 2025 - $3,175,512).

Approximately 20% of the provision is anticipated to be settled in early 2027 with the reclamation of the previous tailings pond facility. The remainder is expected to be incurred in the years 2031 - 2033 following the closure of the Cordero mine.

17. Contingent Consideration

As at September 30, 2026 and December 31, 2025, the Company's Contingent Consideration is as follows:

	2026	2025
Opening balance	**2,692,012**	**2,175,693**
Payments	(625,979)	(811,023)
Foreign exchange	195,666	(186,014)
Loss on fair value adjustment	1,282,041	1,513,356
Closing balance	**3,543,740**	**2,692,012**
Less: current portion	(1,218,429)	(1,149,436)
Non-current portion	**2,325,311**	**1,542,576**

The contingent consideration is associated with the acquisition of Operadora. It is related to a 1% NSR royalty due on all future production from the El Bagre and Nechi properties. The contingent consideration is the present value of discounted cash flows based on the expected amounts and timing of the NSR using an effective interest rate of 10%, average gold price of US$ 4,518 (December 31, 2025 - US$ 4,598), and average USD-CAD exchange rate of 1.38 (December 31, 2025 - 1.36). During the nine months ended September 30, 2026, the Company updated its mineral resource estimate and mine planning models. This updated mineral resource estimate resulted in an increase of $1,469,000 (2025 - $Nil) in the present value of the liability. If all other variables remain constant, a 10% change in the quantity of gold produced, the gold price or the exchange rate would change the contingent consideration by $354,000 (December 31, 2025 - $269,000).

The contingent consideration payments are variable, as they are subject to cumulative adjustments when the number of ounces to be delivered under the contracts change, when there is an increase in the Company's mineral resource estimates or when there are changes to the mine plans.

Transactions

The following transactions impacted the number of common shares outstanding for the nine months ended September 30, 2026:

(i) The Company completed a non-brokered private placement pursuant to the Listed Issuer Financing Exemption under National Instrument 45-106. A total of 10,000,000 common shares were issued at a price of $0.75 per share for aggregate gross proceeds of $7,500,000. In connection with the placement, the Company paid $525,000 finder's fees in cash and issued 700,000 finder's warrants, valued at $127,400 using Black-Scholes option pricing model with share price on grant date of $0.71, risk-free interest rate of 2.75%, expected volatility of 68%, expected life of 2 years, and expected dividend yield of 0%. Each finder's warrant is exercisable into one common share at an exercise price of $1.10 for a period of 24 months from the date of issuance.

(ii) The Company issued 990,000 common shares for proceeds of $477,500 related to exercising stock options.

(iii) The Company issued 81,277 common shares for proceeds of $162,554 in relation to exercising share purchase warrants.

(iv) The Company issued 16,666 common shares valued at $9,334 in relation to previously granted restricted share units.

The following transactions impacted the number of common shares outstanding for the year ended December 31, 2025:

(v) The Company completed a non-brokered private placement pursuant to the Listed Issuer Financing Exemption under National Instrument 45-106. A total of 14,997,826 units (the "Units") were sold at a price $1.15 for aggregate gross proceeds of $17,247,500. Each Unit consisted of one common share and one-half of one common share purchase warrant. Each whole warrant entitles the holder to acquire one additional common share at an exercise price of $2.00 for a period of 36 months from the date of issuance. The warrants are subject to an accelerated exercise provision that stipulates that if the shares of the Company trade above $3.00 for a period of 30 days, the warrants will expire 30 days after such date, unless exercised. In addition, 898,968 finders' warrants with the same terms were issued in connection with the private placement.

(vi) The Company issued an additional 8,695,652 Units on the same terms as the private placement in settlement of a $10,000,000 subordinate loan repayment.

(vii) The Company issued 1,540,000 common shares for proceeds of $400,550 related to exercising stock options.

(viii) The Company issued 16,668 common shares valued at $9,333 in relation to previously granted restricted share units.

Stock options

The Company has an incentive stock option plan (the "Option Plan") whereby the Company may grant stock options to eligible employees, officers, directors and consultants with the exercise price, expiry date, and vesting conditions determined by the Board of Directors. All stock options are equity settled. The Option Plan provides for the issuance of up to 10% of the Company's issued common shares as at the date of the grant.

The Company's stock options outstanding as at September 30, 2026 and December 31, 2025, and the changes during the nine months ended September 30, 2026, are as follows:

	Number of options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life

During the nine months ended September 30, 2026, the Company granted 3,168,334 (2025 - 1,725,000) options with vesting periods ranging from 18 to 36 months (2025 - immediate vesting to 36 months). 500,000 (2025 - Nil) options expired and 990,000 (2025 - 1,440,000) options were exercised. The weighted average share price for the options exercised during the nine months ended September 30, 2026 was $1.69 (2025 - $1.25).

The fair value of all options granted is estimated on the grant date using the Black-Scholes option pricing model. The assumptions used in calculating the fair values of options granted during the nine months ended September 30, 2026 and the year ended December 31, 2025, were as follows:

	Sept. 24 2026	Aug. 28 2026	May 28 2026	Mar. 11 2026	Dec. 12 2025	Nov. 28 2025	Aug. 27 2025	May 28 2025	Jan. 24 2025

Restricted Share Units

Under the Option Plan, the Company may grant restricted share units (“RSUs”) to its eligible employees, officers, directors and consultants. The Option Plan stipulates that a maximum of 400,000 RSUs can be

issued. The awards have a graded vesting schedule over a three-year period and are equity-settled upon vesting. The associated compensation cost is recognized as a share-based compensation expense.

	Number of RSUs	Weighted Average Grant Date Fair Value
	#	$/share
December 31, 2024	**75,000**	**0.54**
Granted	105,000	0.51
Settled	(16,668)	0.56
December 31, 2025	**163,332**	**0.52**
Granted	236,666	2.06
Settled	(16,666)	0.56
September 30, 2026	**383,332**	**1.47**

The total share-based compensation expense related to the vesting of RSUs for the three and nine months ended September 30, 2026 was $51,498 (2025 - $5,972) and $273,867 (2025 - $20,023), respectively.

The RSUs are awarded to executives and are measured at fair value, which is determined based on the quoted market price of the Company's common shares at the grant date. The fair value of the estimated number of RSUs that are expected to vest is recognized as share-based compensation expense over the vesting period of the RSUs with a corresponding amount recorded in contributed surplus until the respective shares are issued in settlement of the RSUs.

Warrants

The Company's warrants outstanding as at September 30, 2026 and December 31, 2025 and the changes during the nine months ended September 30, 2026 are as follows:

22. Financial Risk Management

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company principally relies on its mining operations to generate the funds needed to meet budgeted operating requirements and also closely monitors their liquidity position and may seek additional financing opportunities if warranted.

As at September 30, 2026 and December 31, 2025, the Company had:

	2026	2025
Cash	383,074	6,301,514
Working capital (current assets less current liabilities)	8,937,772	17,214,079

During the period ended September 30, 2026, the Company completed a $7,500,000 private placement and settled $25,780,086 of subordinated debt through the issuance of common shares. Subsequent to the period ended September 30, 2026, the Company obtained an unsecured revolving credit facility of up to $2,500,000 and entered into a silver royalty agreement for aggregate proceeds of US$10,000,000, with the first tranche of US$3,000,000 closed on November 23, 2026 (Note 26).

Management has assessed the Company's ability to continue as a going concern by preparing cash flow projections incorporating expected operating cash flows, the anticipated collection of government receivables, and the subsequent event financing arrangements. Based on this assessment, management has concluded that the Company has sufficient resources to fund its operations for at least twelve months from the date these financial statements were approved for issuance. This assessment is subject to risks and uncertainties including, but not limited to, the continued generation of positive operating cash flows, the timely collection of government receivables, the receipt of silver royalty proceeds on the expected timeline, and prevailing gold prices and foreign exchange rates.

The Company’s financial obligations consist of trade payables and accrued liabilities equipment financing, lease obligations, acquisition payable and contingent consideration. The maturity analysis of the financial obligations as at September 30, 2026, is as follows:

	1 year	2-3 years	4-5 years	More than 5 years	Total
Trade payables and accrued liabilities	33,429,073	-	-	-	33,429,073
Equipment financing – principal and interest	929,374	420,215	-	-	1,349,589
Lease obligations – principal and interest	423,065	647,418	107,903	-	1,178,386
Acquisition payable	705,866	2,117,597	-	-	2,823,463
Contingent consideration	1,334,144	2,426,766	566,900	-	4,327,810
	36,821,522	**5,611,996**	**674,803**	**-**	**43,108,321**

Fair values

The carrying value of cash, short-term investments, trade and other receivables, and trade payables and accrued liabilities approximate their fair values due to the immediate or short-term nature of these instruments.

The fair value of the equipment financing, acquisition payable and subordinated loan for disclosure purposes is determined using discounted cash flows based on the expected amounts and timing of the cash flows discounted using a market rate of interest adjusted for appropriate credit risk. The fair value of the equipment financing, subordinated loan and contingent consideration, for disclosure purposes, is determined using Level 3 inputs.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The Company's financial assets and liabilities are measured and recognized according to a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs. The Company's financial assets and liabilities are classified based on the lowest level of input significant to the fair value measurement based on the fair value hierarchy below:

Level 1: Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data.

The following tables present the Company's financial assets and liabilities by level within the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value.

As of September 30, 2026:

	Carrying value		Fair value hierarchy		
	FVTPL	**Amortized costs**	**Level 1**	**Level 2**	**Level 3**
Financial liabilities					
Contingent consideration	3,543,740	-	-	-	3,543,740

As of December 31, 2025:

	Carrying value		Fair value hierarchy		
	FVTPL	Amortized costs	Level 1	Level 2	Level 3
Financial liabilities					
Contingent consideration	2,692,012	-	-	-	2,692,012

The fair value of level 3 contingent consideration is determined using a discounted cash flow model, taking into consideration assumptions including future gold prices, future foreign exchange rates and operating results from the Company's mines (Note 17). As at September 30, 2026, the fair value of the subordinated loan is $Nil as it was settled in prior quarter (December 31, 2025 - 20,363,856).

Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern so that it can provide returns for shareholders and benefits for other stakeholders and to bring its mineral properties to commercial production.

The Company funds its operations and capital requirements through a combination of cash flows generated from its producing mining operations and external financing. The Company also recently completed a private placement and raised gross proceeds of $7,500,000 (Note 21). The capital structure of the Company currently consists of equity attributable to shareholders of $77,857,823 (December 31, 2025 - $44,453,102) and a subordinated loan of $Nil (December 31, 2025 - $21,484,381). The Company manages the capital structure and makes adjustments as appropriate depending on changes in economic conditions and the risk characteristics of the underlying assets, primarily mineral properties. In order to maintain or adjust the capital structure, the Company may issue new shares through equity offerings or sell assets to fund operations. Management reviews its capital management approach on a regular basis, and there have been no changes to the Company's approach during the nine months ended September 30, 2026. The Company is not subject to externally imposed capital requirements.

23. Segment Reporting

The Company's business segments presented reflect the management structure of the Company and the way in which the Company's chief operating decision maker reviews business performance. The business segments are summarized below.

The following tables present revenue and profit information for the Company's reportable segments for the three and nine months ended September 30, 2026 and 2025:

For the three months ended September 30, 2026:

	Colombia	Brazil	Total Segments	Corporate and other	Total

Net income (loss)	12,105,317	(119,196)	11,986,121	(6,797,651)	**5,188,470**

During the three and nine months ended September 30, 2026 and 2025, the Company had one significant customer accounting for 99% of its revenue. The Company does not consider itself to be economically dependent on this customer as transactions with this party could be replaced by transactions with other parties on similar terms and conditions.

The following tables present assets and liabilities information for the Company's operating segments as at September 30, 2026 and December 31, 2025:

As of September 30, 2026:

	Colombia	Brazil	Total Segments	Corporate and other	Total

24. Earnings per Share

The calculation of diluted earnings per share is based on income attributable to ordinary shareholders and the weighted average number of shares outstanding after adjustments for the effect of potentially dilutive shares. For the three and nine months ended September 30, 2026, and 2025, potential share issuances arising from the exercise of share options and settlement of RSUs were included in the calculation of diluted weighted average shares outstanding as well as their impact on income attributable to shareholders of the Company. Potentially dilutive shares associated with share options out of the money were not included in the diluted earnings per share calculation as their effect is anti-dilutive.

The following table summarizes the calculation of basic and diluted earnings per share for the three and nine months ended September 30, 2026, and 2025:

		Three months ended September 30,		Nine months ended September 30,	
		2026	2025	2026	2025
Income (loss) for the period	**$**	**(2,374,851)**	**424,965**	**(8,381,558)**	**5,188,470**
Basic weighted average number of common shares outstanding	#	151,889,683	104,774,429	131,961,836	96,483,150

Basic	$/share	(0.02)	0.00	(0.06)	0.05
Diluted	$/share	(0.02)	0.00	(0.06)	0.05

For the three months ended September 30, 2026, 7,705,334 (2025 - 100,000) options, 383,332 (2025 - 163,332) RSUs and 13,564,430 (2025 - 12,945,707) warrants were excluded from the calculation as their effect was anti-dilutive. For the nine months ended September 30, 2026, 7,705,334 (2025 - 300,000) options, 383,332 (2025 - Nil) RSUs and 13,564,430 (2025 - 12,945,707) warrants were excluded from the calculation as their effect was anti-dilutive.

25. Provisions and Contingent Liabilities

Due to the nature of the Company's operations, it is subject to various investigations, claims, and legal and tax proceedings in the ordinary course of its business. Based on consultation with the Company's legal advisors, management considers provisions for its outstanding and pending legal claims to be adequate.

Each of these matters is subject to various uncertainties and it is possible that some of these matters may resolve unfavorably to the Company. In the opinion of management, based upon the information currently available, none of these matters are expected to have a material adverse effect on the results of operations or financial conditions of the Company. In the event that management's estimate of the future resolution of these matters changes, the Company will recognize the effect of these changes in its consolidated financial statements in the period in which such changes occur. As at September 30, 2026, the Company has recognized a provision related to certain matters of $1,195,000 (December 31, 2025 - $1,131,000).

26. Subsequent Events

Subsequent to the period ended September 30, 2026, the following events occurred:

(i) The Company entered into an unsecured revolving credit facility of up to $2,500,000 with a company controlled by the Chief Executive Officer and Chairman of the Company. The credit facility carries a fixed interest rate of 6.00% per annum. Each advance, together with accrued interest, is repayable six months after the date of such advance, subject to the lender's right to demand repayment upon five business days' written notice. The Company is allowed to prepay each advance without penalty or premium.

(ii) The Company entered into a definitive royalty agreement with Silver Crown Royalties Inc. (the "Purchase") for aggregate cash proceeds of US$10 million in exchange for granting the Purchaser a royalty exclusively on payable silver mined from the Company's Cordero mine and the past-producing La Ye and Los Mangos mines, associated with concessions L5682005 and R57011C4 in Antioquia, Colombia (the "Project"), subject to allowable deductions and settled in cash equivalent. On November 23, 2026, the Company announced that it has closed the first tranche of US$3 million, with a portion of the proceeds allocated toward the full repayment of the Stage 4 obligation under the Company's amended Offtake Agreement with Goldlogic Corp.(Note 13), eliminating the associated monthly gold delivery commitment of 59.9 ounces. The second tranche of US$7 million is payable within ten business days following the discharge of the Company's existing financing security over the Project and the registration of first-ranking security, subject to applicable pari passu rights, in favor of the Purchaser. The company expects to complete the discharge and the Purchaser's registration by December 31, 2026.

Until payment of the second tranche, the Purchaser will be entitled to 30% of the royalty, with the full royalty entitlement becoming effective upon payment of the second tranche. If the Company's existing financing security over the Project has not been discharged by December 31, 2026, the Purchaser may require the Company to repurchase the royalty.

Until the Purchaser has received the cash equivalent of an aggregate of 305,500 ounces of payable silver, the Company will be required to make cash payments equivalent to, for each calendar quarter, the greater of:

(a) 90% of payable silver produced from the Project during the applicable quarter;
(b) the applicable minimum quarterly delivery requirement.

The minimum delivery requirement schedule is as follows:

- Q4 2026: 5,500 ounces;
- 2027: 30,000 ounces, being 7,500 ounces per quarter;
- 2028: 60,000 ounces, being 15,000 ounces per quarter;
- 2029: 60,000 ounces, being 15,000 ounces per quarter;
- 2030: 60,000 ounces, being 15,000 ounces per quarter;
- 2031: 60,000 ounces, being 15,000 ounces per quarter;
- Q1 2032: 15,000 ounces;
- Q2 2032: 15,000 ounces.

Deliveries in excess of the applicable minimum requirements will count toward satisfaction of the delivery threshold. If the delivery threshold is satisfied before the end of the scheduled delivery period, the remaining minimum delivery obligations will automatically terminate. The royalty will continue for the life of the project as a 7.5% NSR royalty on all payable silver mined from the Project.
